

Environmental Policy Statement

We are committed to protecting the local and global environment and to minimise any environmental impact concerning our activities, products and services.

To achieve this the company shall:

- Ensure adherence with its compliance obligations, all applicable legislation, permissions, authorisations and other requirements.
- To include the consideration of environmental issues in all business strategies and initiatives.
- Ensure that up-to-date and proven technology will be used wherever practicable and cost effective.
- Prevent pollution, reduce waste and minimise the consumption of resources.
- Ensure that all sites, vehicles, mobile plant and the immediate environment are subject to a regular maintenance and cleaning regime.
- Consider the wider global impact of all out activities, including those of out suppliers and customers.
- Ensure that all staff are given appropriate training and are made aware of the environmental aspects, impacts and risks associated with their jobs.
- Seek continual improvement through the monitoring of environmental measures and the setting of objectives and targets, achieving enhanced environmental performance.
- Ensure that energy-efficient techniques are utilised throughout the company's activities wherever practicable and cost effective.
- Encourage environmental protection among our suppliers and subcontractors.
- Encourage and enhance biodiversity and ecology.

We are committed to ensure that the protection of the environmental is firmly embedded in both the companies and all employees culture and we will endeavour to influence its suppliers and customers in a similar strategic environmental manner.
